REQUEST TO WAIVE SURVEY REQUIREMENT FOR THE PURPOSE OF MASONRY FENCE CONSTRUCTION

The Building Department requires the affected property corners located and monumented by a California licensed surveyor prior to building or rebuilding a masonry fence along the property line to insure that the fence will be properly located according to the approved drawing.

This requirement may be waived if property owners on each side of the fence request waiving the survey requirement. This form may be used when filled out appropriately for such a request and submitted to the Building Department prior to issuing a building permit.

We, the undersigned, agree and request the Building Department Director to waive the survey requirement for building a masonry fence adjoining our properties.
